

MIRACLEBOARD®

THE ULTIMATE PANEL FOR FINISHING AND DURABILITY

MiracleBoard® offers a revolutionary approach to panel solutions with its unique treated paper face and structural integrity akin to PlyCorr™. Designed to support a wide range of finishing techniques, MiracleBoard® is perfect for applications that require a high-quality paint or veneer finish. Its urethane-treated overlay not only enhances the panel's moisture resistance but also eliminates the need for a backer sheet, making it a cost-effective and time-saving solution for your design needs.

PRODUCT FEATURES

ENHANCED SURFACE QUALITY

The standout feature of MiracleBoard® is its treated paper face, which provides an optimal surface for painting or applying real wood veneers. This treatment ensures that the panel remains smooth and flawless, providing a perfect canvas for creative and decorative projects.

MOISTURE RESISTANCE

MiracleBoard® is engineered with a urethane-treated overlay that significantly enhances its resistance to moisture. This makes it an ideal choice for environments where humidity and moisture are concerns, ensuring the longevity and durability of the panel in various applications.

VERSATILITY IN APPLICATION

MiracleBoard® is incredibly versatile and can be utilized in a plethora of applications:

Interior Signage: Durable and visually appealing solution for interior signage while ensuring long-lasting performance.

Store Fixtures: Use for displays, exhibits, and kiosks where aesthetics are as important as durability.

Wall Panels: Ideal for office partitions, sandwich panels, and modular furniture, providing structural stability and aesthetic appeal.

Trade Show Booths: Construct lightweight and durable booths that are easy to assemble and disassemble.

Specialty Packaging: Suitable for creating pallet decks, bunks, and stickers where strength and lightness are required.

BENEFITS

WHY CHOOSE MIRACLEBOARD®?

Choosing MiracleBoard® for your projects brings several advantages:

Aesthetic Flexibility: Its smooth surface is ideal for high-quality finishes, allowing designers to achieve premium aesthetics effortlessly.

Time and Cost Efficiency: The elimination of a backer sheet for veneering or painting reduces both material costs and preparation time.

Environmental Sustainability: MiracleBoard® is not only durable but also recyclable. PlyVeneer products are made in the USA from 100% sustainable and responsibly sourced materials.

SPECIFICATIONS

Material: Urethane-treated paper-faced panel

Applications: Suitable for interior signage, store fixtures, wall panels, trade show booths, and specialty packaging

Customization: Available in various sizes and thicknesses to meet specific project requirements.

Eco-Friendly: PlyVeneer products are made in the USA from 100% sustainable and responsibly sourced materials.

CUSTOMIZATION OPTIONS

MiracleBoard® can be tailored to fit the unique specifications of your project, offering customization in size and thickness to meet the exact needs of your application. PlyVeneer® Products prides itself on providing panels that are not only functional but also aesthetically pleasing, enhancing the visual impact of any space.
