

**PLYCORR™ STRUC1**

**THE ULTIMATE PALLET HELPER FOR ROLLING BELTS**

Introducing Struc1, the latest innovation in our PlyCorr™ line, designed specifically as a pallet helper for rolling belts, roll cases and conveyors.

This product revolutionizes material handling with its unique combination of strength and lightness, providing exceptional support for pallets on rolling belts, roll cases, and conveyors.

Engineered for durability and ease of use, Struc1 ensures seamless movement and secure transport of goods, making it the ideal choice for industries seeking efficient and reliable pallet handling solutions. PlyVeneer® products are made in the USA from 100% sustainable and responsibly sourced materials.

**WHY PARTNER WITH PLYVENEER®?**

**STRENGTH AND LIGHTNESS**

PlyCorr™ offers a unique combination of lightweight properties and exceptional durability, making it perfect for demanding applications like store fixtures and trade show booths.

**VERSATILE AND CUSTOM**

Leverage the innovative PlyCorr™ Struc1, designed to deliver unparalleled efficiency, strength, and durability in pallet handling on rolling belts, roll cases, and conveyors, ensuring your operations run smoothly and reliably.

**ENHANCED EFFICIENCY**

With decades of industry experience, we deliver long-lasting durability and consistent quality, making PlyVeneer® a trusted choice for your material solutions.
